ATB TRACTION

Since 2013, ATB events have attracted between 300 - 5,000 participants (per event), depending on venue size. Watch an ATB event video - <https://bit.ly/2GE5YEt>

ATB Events include: Careers Fairs, University Talks, Corporate Open Days & Entrepreneurship Bootcamps.

The student demography is a good market to test products & services as 65% of Kenyans are aged under 35. Kenyan youth are mobile native and open to adopting and adapting to new solutions. In addition, we ensure females are well represented through our Student Brand Ambassador (BA) networks.

Sustainability Plans

REVENUE

1. Anonymised Data
2. **'Real Time'** Location Intelligence
3. Consumer Surveys (*the informal sector is a good measure of African consumer economies*).
4. **Sponsorship/Advertising** - from Corporates who wish to amplify their messages/launch new products/services to a receptive audience: Telcos, FMCGs, Banks, Renewable Energy, Insurance Cos.
5. **Subscription & transactional payments** for ATB platform add ons: MSME events & demos (pop up shops/buy local shows), training programmes, content ("**How to** ..." podcasts).

FUNDING

Required to scale & broaden impacts within Kenya and then other East African countries. We are approaching:

1. Social Impact Investors/Funds.
2. Foundations
3. High-net-worth individuals
4. Angels
5. Seed Investors

CHALLENGES (1)

- High youth unemployment in Africa.
- Governments and private sector face challenges in creating enough jobs for rapidly rising youth population (in Kenya for e.g., over 65% of the population is aged 35 or younger).
- Nearly 80% of Kenyans entering the jobs market each year, find work within the “informal” sector. There are not enough government or formal sector jobs to meet the over 100,000+ university and tertiary graduates each year.
- Sectors such as manufacturing are still very small and most tend to prefer using casual labour.
- The informal sector in Africa is both disorganised and fragmented. Most participants are not waged employees.
- With little or no welfare system in place (healthcare and education is often paid for privately), many MSMEs are one emergency (crop failure, illness), away from returning to poverty. This also leads to high numbers of youth attempting to migrate to the west with some youth susceptible to radicalism.
- Many young people are migrating from villages to cities thus putting pressure in urban areas – high crime, poor drainage systems, low quality housing.
- Many MSMEs have little or no advice/support which means environmental as well as health & safety matters are often inadvertently overlooked with many MSMEs not even aware of the negative impact their own actions have on their environment i.e. poor disposal of used cooking oil, plastic bags & food, continuous use of firewood leading to deforestation > climate change.

- A platform that educates African entrepreneurs on running and growing their businesses in a safe, environmentally friendly & responsible manner.
- An inclusive mentorship platform to encourage more female & youth participation in entrepreneurship.
